Question 1

1 / 1 pts

What are some problems with the Waterfall Methodology? (Check All That Apply)

Correct!

☑

Requirements may change during development, which affects deadlines and may require for phases to be repeated

☐ All bugs will be worked out before the product is published

Correct!

☑ Because the phases are sequential, any delays in one phase will slow down the entire development process

☐ The CTO is unable to see the daily progress during development

⠿

Question 2

1 / 1 pts

What is an assertion of the Agile manifesto?

○ We value processes and tools over individuals and interaction.

○ We value following a plan over responding to change.

Correct!

◉ We value working software over comprehensive documentation.

○ We value contract negotiation over customer collaboration.
